## Electrical Engineer

Hi, I’m  
Samantha

## Education

2024

**BSC. ELECTRICAL ENGINEERING**  
Norwegian University of Science and Technology

2017 – 2020

**GENERAL SCIENCE**  
Holy Child School

## Profile

"I am an electrical engineering student at NTNU with a solid foundation in circuit design, simulation, and programming. I am skilled in simulation tools like Proteus and Multisim, as well as Python. My work experience at YunExpress Logistics has enhanced my attention to detail and efficiency in technical processes. Additionally, I have experience in graphic design and branding, which complements my technical expertise with creative problem-solving."

## Work Experience

Sep 2024 – Present

**Gobaith – Co-Founder**

Founded an organization focused on [briefly describe AFR’s mission, such as community development, environmental advocacy, etc.].  
Developed and implemented strategies for [fundraising, outreach, project management, etc.]

**Gobaith – Co-Founder**

Sep 2024 – Present

Founded an organization focused on [briefly describe AFR’s mission, such as community development, environmental advocacy, etc.].  
Developed and implemented strategies for [fundraising, outreach, project management, etc.]
